

DEPARTMENT OF THE ARMY
Headquarters Battery, 6th Battalion, 32d Artillery
APO San Francisco 96316

13 December 1967

SUBJECT: Letter of Commendation

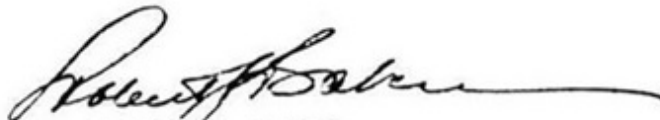

TO: Specialist Five George Solovay
US
Headquarters Battery, 6th Battalion, 32d Artillery
APO San Francisco 96316

1. On the occasion of your departure from this unit, I would like to commend you for your exemplary performance of duty as senior radio mechanic during the past eighteen months. In this position you were responsible for the maintenance of over 50 AM and FM radio sets and their various component equipment. This is a job which normally falls on one of greater experience and many months of specialized Army signal training. However, the high state of maintenance and the low amount of down time of the radio equipment of this battalion can be attributed directly to your thorough knowledge of electronics and your diligence and devotion to duty. That you did not receive the military schooling normal for your job only further attests to your exceptional performance.

2. On many occasions you were called into the field during the midst of combat operations when time lost because of communications failure was critical. You could be depended upon to readily identify the problem and rapidly resolve it with a minimum of interference with the mission of the battalion. Efforts such as these definitely enhanced the accomplishment of the battalion's mission in the Republic of Vietnam.

3. The example you have set for the other members of this organization is worthy of praise. Your attitude toward your job, your spirit and your willingness to give that little bit of extra effort which so often means the difference between just getting the job done and getting the job done in a manner by which your unit's combat effectiveness is appreciably increased, are all qualities to which everyone should aspire. Your demonstration of these attributes has been an example to those with whom you have worked and in many cases has had the effect of improving their productivity, also.

4. Again, I wish to express my appreciation and commendation for your outstanding contributions to this organization. I know that with your knowledge of electronics you should have little trouble finding a position after completion of your military obligation. Best of luck in your future endeavors.

ROBERT J. BAKER
CPT, Artillery
Commanding
